Don’t Let Your To-Do List Be Your Only Stop!

Your **To-Do List** in Buzz is a great way to see graded activities that are coming up or past due.

But remember: **the To-Do List does not show everything you need to complete**.

Before jumping straight to an **Assess It**, go to Activities and work through the lesson content that comes before it.

Your **Teach It**, **Read It**, **Practice It**, and **other learning objects** are designed to help you prepare and be successful.

Quick Tip:

☐ Check your **To-Do List** to see what’s coming up.
☐ Use **Activities** to work through your course in order.
☐ Complete the learning activities **before** taking the Assess It.

Learn More: Understanding the To-Do List. This article identifies the different ways students can find assignment due dates in their learning management system (LMS).

Think of your To-Do List as your reminder, not your roadmap!
