The purpose of this resource is to serve as a catalog of the offerings provided by the Lincoln Learning Solutions Training Team.

Lincoln Learning Solutions' Training Offerings

As you view this catalog, please keep in mind:
- Any virtual session can also be delivered in-person.
- Each virtual session can be customized per client.
- Custom sessions commence with a Pre-Session Consultation with our team.
- Implementation Trainings will vary based on client product and services selected.
- Required Implementation sessions should be scheduled before any additional sessions.
- Our team is in the process of creating on-demand options to expand our offerings.

Training Offerings

*Indicate sessions that could be required during the **implementation** phase. These sessions will be discussed, customized, and scheduled during the Client Implementation call.*

Audience	Title/Description	Timeline
Client	**Enrollment Essentials*** Client Admins will gain foundational knowledge on creating user accounts and enrolling students into classes. This session covers the essential steps to streamline the Pulse enrollment process effectively. **On-Demand Available**	Year 1* Annual (New Admins)
All	**Understanding Your Lincoln Learning Course** Explore the main components of your Lincoln Learning Course within the LMS to understand how they function together. Learn how to support students in completing activities and assessments. This session helps clients understand course structure, pacing, and resources to aid student progress.	Year 1* Annual (New Staff)
Teacher	**Teaching Essentials*** This introductory session for new clients offers a comprehensive overview of the key elements teachers need to begin with Lincoln Learning. Topics covered may include navigation, curriculum fundamentals, grading procedures, communication strategies, and utilizing the Help Center.	Year 1* Annual (New Teachers)
Teacher	**Lincoln Content Bank Essentials*** This session walks through the steps for locating, searching, and deploying content from the Lincoln Content Bank. An overview of the Empowered learning objects will enhance the training and allow attendees to understand how to utilize single objects or build powerful learning experiences.	Year 1* Annual (New Teachers)

Teacher	**Mastering Lincoln Learning in Your LMS** Our training team will collaborate with you to identify agenda items focused on the Lincoln Learning product within your LMS and tailor a session to meet your team's specific needs. Our staff possess extensive experience in Buzz, Canvas, and Schoology. For instance, a customized Buzz session may cover topics such as Scheduling Due Dates, Assessment Customizations, Standards-Based Report Cards, or Course Finalization.	Year 1 Annual (New Teachers)
Teacher	**Mastering the Lincoln Content Bank** **[NEW OFFERING]** Reinforcing the concepts in Lincoln Learning Content Bank Essentials, this custom session allows teachers to gain a deeper understanding of the tool and how it can enhance their own teacher experience. Topics will include alternative search options, building and maintaining folder structures, and more while using the teachers' real-world use cases to power this unique session. Prior LCB access is recommended.	Year 1 Annual (New Teachers)
Families	**Family Orientation** In partnership with Lincoln Learning, families are invited to an introductory session to explore the Lincoln Learning curriculum from a student's perspective. This session provides an excellent opportunity for clients to set expectations and engage with families effectively.	Year 1 Annual (New Families)

Professional Development Offerings

Audience	Title/Description	Timeline
Client	**Getting Creative with Materials** Don't have the recommended materials for a lesson? This session encourages families and educators to think outside the box and utilize everyday items creatively to support their child's education. Discover innovative ways to make learning engaging and resourceful.	Year 1 - Year 2 Annual (New Curriculum Offerings)
Teacher	**Lincoln Learning's Academic Integrity** **[NEW OFFERING]** Learn how Lincoln Learning staff identifies and handles Academic Integrity in the virtual classroom. This session is designed to equip teachers to formulate strategies to identify and prevent cheating/plagiarism and develop/evaluate academic integrity policies and procedures.	Year 1 - Year 2
Teacher	**Second Semester Preparation** This session outlines the necessary steps for preparing your course for second semester enrollments. These steps include adjusting content, recalling teaching essentials, and wrapping up first semester enrollments.	Year 1 - Year 2
Teacher	**End of Year Preparation** **[NEW OFFERING]** This session outlines the necessary steps for preparing for the end of the year. These steps include adjusting plans, recalling essential tasks, and wrapping up annual activities.	Year 1 - Year 2

Teacher	**Data-Driven Instructional Practices** Data tells a story and monitoring data continually can be the key to student success. In this session, teachers will explore where to find data and how to use it to enhance student achievement.	Year 1 - Year 2
Teacher	**Empower your Classroom Management** **[NEW OFFERING]** Lincoln Learning content, combined with a learning management system, can streamline classroom management. This session covers establishing an effective online learning environment, promoting academic integrity, building routine and structure, and using data to enhance student success.	Year 1 - Year 2
Teacher	**Mastering Blended Learning** **[NEW OFFERING]** Using Lincoln Learning, examine different models of blended learning, evaluate instructional strategies, and identify the necessary routines and procedures to incorporate blended learning into daily practices, aiming to enhance student engagement and achieve higher levels of success.	Year 1 - Year 2
Teacher	**Personalizing the Learning Experience** This session emphasizes the importance of accommodations, modifications, individual instruction, differentiated learning and supplemental support in creating personalized learning experiences for special populations. The training is divided into two sessions: the first focuses on creating customized learning spaces, while the second explores various personalized learning options.	Year 1 - Year 2
All	**Strategies for Engaging Virtual Learners** **[NEW OFFERING]** Engaging content alone does not motivate virtual learners. In this session, you will understand and implement highly effective practices and how to take advantage of Lincoln Learning content to motivate and engage your learners.	Year 1 - Year 2
Teacher	**Apply It in Your Classroom** **[NEW OFFERING]** Lincoln Learning offers various methods like Apply Its and Project-Based Learning assessments to engage and challenge students. In this session, examine the advantages of project-based learning and explore how to effectively implement Lincoln Learning's Project-Based Learning solutions in your learning environment, sparking inspiration and creativity among your students.	Year 1 - Year 2
Client	**Mastering Pulse Reporting** Learn how to build a diverse array of reports with Lincoln Learning Solution's Pulse product. This session provides attendees with the expertise to generate and export data effectively, leading to thorough and insightful reporting.	Year 2
Client	**Mastering Buzz Reporting** Discover how to construct a variety of reports within Buzz for the Lincoln Learning curriculum. This session offers participants the skills to generate and export data efficiently, ensuring detailed and insightful reporting.	Year 2

Teacher	**Maximizing a Subject Area with Lincoln** **[NEW OFFERING]** In this session, educators will review the comprehensive subject-specific resources available within Lincoln Learning. Participants will be informed about how to leverage these resources to enhance their curriculum and support student engagement. The session will cover techniques for integrating subject area content into daily lessons, utilizing advanced customization options, and employing best practices for instructional impact. By the end of this session, teachers will have strategies to create a learning environment tailored to their specific subject areas.	Year 2+
